

# Sergio MARINELLI

I am currently posted at the Delegation in La Paz, Bolivia where I am the Head of the Political, Trade and Press section. Before Bolivia I have been posted in 5 other countries, including two 35% hardship posts and have served two terms of recyclage in HQ. I speak Italian, English, French and Spanish and have been involved in trade union activities since 2000. I was chairman of the first EEAS staff committee from 2012 until 2014.

**Why I forward my candidacy:** I have now over 20 years experience in the field of External relations and wish to continue my involvement in human resources issues to help mitigate the discrimination Staff in Delegations suffers in terms of career advancement and other related staff policies vis-a-vis colleagues posted in HQ.

**What are my priorities:** Career issues, Health Insurance, fair determination of ICVs.

**What will be my pet subjects:** Conditions of posting in delegations/Annex 10 rules.

**My commitments** (availability...): having already served as Chairman of the Staff committee for a full term, I do not seek the same position but I am ready and willing to accept a post in the executive bureau of the Committee and/or as member, where I will be able to provide my input and knowledge across the whole spectrum of external relations HR policies.
