**Short resume : Contract Agent at the Delegation Vietnam, as Political Adviser. Has worked previously at the EU Delegation to Libya and Honduras, where he was local Staff Representative.**

Why I forward my candidacy: Because I believe that dialogue and concertation are core principles of Europe, and our Administration no longer respects the values we promote outside the European Union. There is still room for dialogue on staff issues.

What are my priorities. Local Agents rights, carrer prospects for Contract Agents, transparency and clear legal framework that removes arbitrary decisions that affect most vulnerable staff.

What will be my pet subjects. Reform of the ICV and other compensatory provisions, clear rules dor difficult/crisis delegations, clear rules for medical leave and other entitlements.

My commitments (availability...). All my tasks as member of the Staff Committee will be carried out outside office hours, and I will compensate my Delegation the days used for Staff Committee sessions.
